NSE Indices launches a new thematic index - Nifty MidSmall India Consumption

NSE's index services subsidiary, NSE Indices Limited today launched a new thematic index - Nifty MidSmall India Consumption index.

The Nifty MidSmall India Consumption index aims to track the performance of the portfolio of stocks that broadly represent the India consumption theme within the basic industries like pharmaceuticals, media and entertainment, telecom services, hotels, consumer electronics, residential, commercial projects, etc. Companies with domestic operating revenues of more than 50% are considered eligible to be the part of the index. The index includes upto 30 stocks. The stocks within the index are selected from the parent Nifty MidSmallcap 400 index based on stock's 6 month average free-float market capitalization within the theme universe.

The weight of each stock in the index is based on stock's free float market capitalization. Stock weights are capped at 10% at the time of index rebalancing.

The base date for the index is April 01, 2005, and base value is 1000. Index is reconstituted on a semi-annual basis and weights are rebalanced on a quarterly basis.

The index is expected to act as benchmarks for asset managers and be a reference index tracked by passive funds in the form of Exchange Traded Funds (ETFs), index funds and structured products.
